## ABOUT ME

Full Stack Developer with 1.5+ years of experience delivering scalable ERP solutions, backend services, and production-ready web & mobile applications. Experienced in building enterprise-grade systems, optimizing database performance, and integrating APIs for seamless functionality.

## TECHNICAL SKILLS

- Frontend:** HTML5, CSS3, Bootstrap, JavaScript, TypeScript, Angular, Ionic.
- Backend:** Python (Django, FastAPI), PHP (CodeIgniter).
- Databases & ORM:** PostgreSQL, MySQL, SQLite, Django ORM, SQLAlchemy, Pydantic.
- Other Skills:** REST API design, Payment Gateway integration, Third-party API integration, Git/GitHub/GitLab, Play Store deployment, Docker Basics, Server deployment, CI/CD basics, Postman/Swagger, Agile/Scrum, etc.

## WORK EXPERIENCE

### A22 IT HUB PVT LTD (Jr. Software Developer) - Ahilyanagar, Maharashtra

Apr/2024 - Present

- Designed and developed RESTful APIs and backend services for ERP modules.
- Contributed to a large-scale ERP Software for the Indian Navy with 25+ modules (Personnel, Leave Management, Training, Retirement, Finance, Inventory, Medical, Quartering, etc.).
- Developed and integrated mobile applications using Ionic, connecting frontend apps with backend services and APIs.
- Implemented ERP services with role-based authentication, ERP Scheduler, and API integration modules.
- Optimized MySQL database queries for performance and scalability.
- Worked with frontend and mobile teams to integrate ERP modules with web apps and mobile apps.
- Handled version control (Git), testing, and ensured production scalability.

### A22 IT HUB PVT LTD (Intern Software Developer) - Ahilyanagar, Maharashtra

Oct/2023 - Apr/2024

- Supported full-stack development with frontend and backend.
- Assisted in writing REST APIs and integrating them with mobile/web apps.
- Helped in database design and migrations using Django ORM.
- Participated in daily meetings and code reviews.

## KEY PROJECTS

- ERP Software for Indian Navy:** Designed and implemented a comprehensive ERP system with 25+ modules, including Leave, Retirement, Training, Finance, Medical, Inventory, and MIS, to streamline operations. Integrated role-based access control, authentication, reporting dashboards, and an ERP Scheduler for automation.
- Web Applications for Co-operative Bank:** Developed multiple systems including HR Management, Service Call Follow-up, Vehicle Management, Cultural & Web Management, and Inventory Management, improving operational efficiency and data management.
- Mobile Applications & Admin Web Controls:** Delivered end-to-end mobile and web solutions, including Event Booking, Grocery Store, B2B Marketing, Choice Mobile Number platform, Free-roaming Animals Management for Municipality, and Social Media Marketing platforms for jewelers and graphic designers.
